

Jordan Willis

Edge Defender

Age: 21 Ht: 6'03" Wt: 263

Arms: 33 3/8" 40: 4.62s

College: Kansas State

I. Executive Summary

By PFF's overall season grades, Willis finished as the No. 1-ranked edge defender in college football in 2016, ahead of the likes of Myles Garrett, Derek Barnett, Taco Charlton, Charles Harris and Takk McKinley. On a game-by-game basis, Willis' grades have climbed steadily since 2014 to the point where he posted a 2016 season without any significant low points. His play improved each season of his career in overall grade, pass rush grade and run defense grade.

Willis posted his best pressure percentage in 2016, affecting the QB on over 15% of his opportunities — and over 16% when coming from his base position at left defensive end. The majority of his pressure came by winning to the outside, but he showed the ability to generate pressure via various attacks.

With 80 total pressures generated in 2016, Willis finished second in the country, and, proving himself not to be one-dimensional, Willis graded near the top of his position group as a run defender as well.

Jordan Willis was on the field for more than 92% of Kansas State's defensive plays — one of the highest percentages among all Power 5 edge defenders in 2016 and the largest percentage he has seen in the past three seasons with the Wildcats. Willis' snap total was also limited by the team's Week 4 game being called at halftime due to lightning. The vast majority of Willis' 2016 snaps came from the left defensive end position and he rushed the passer on 62% of those snaps.

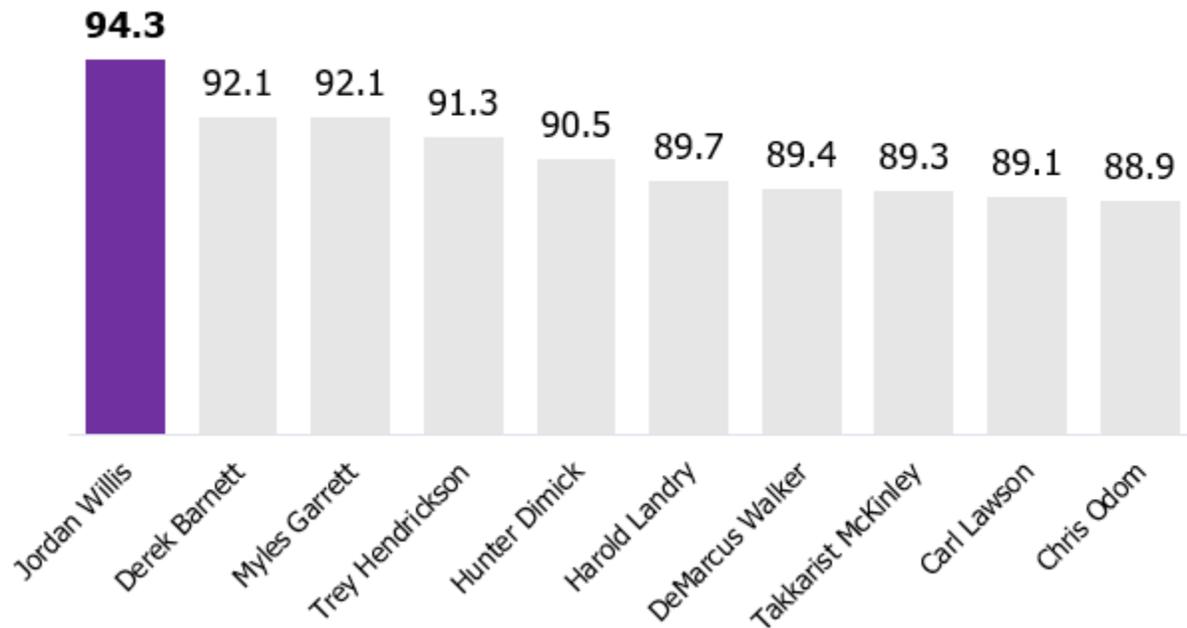

Named the South's Most Outstanding Player at the 2017 Senior Bowl, Willis earned the game's highest pass-rush grade after posting a pair of sacks, four hurries and two forced fumbles on 22 pass-rush snaps.

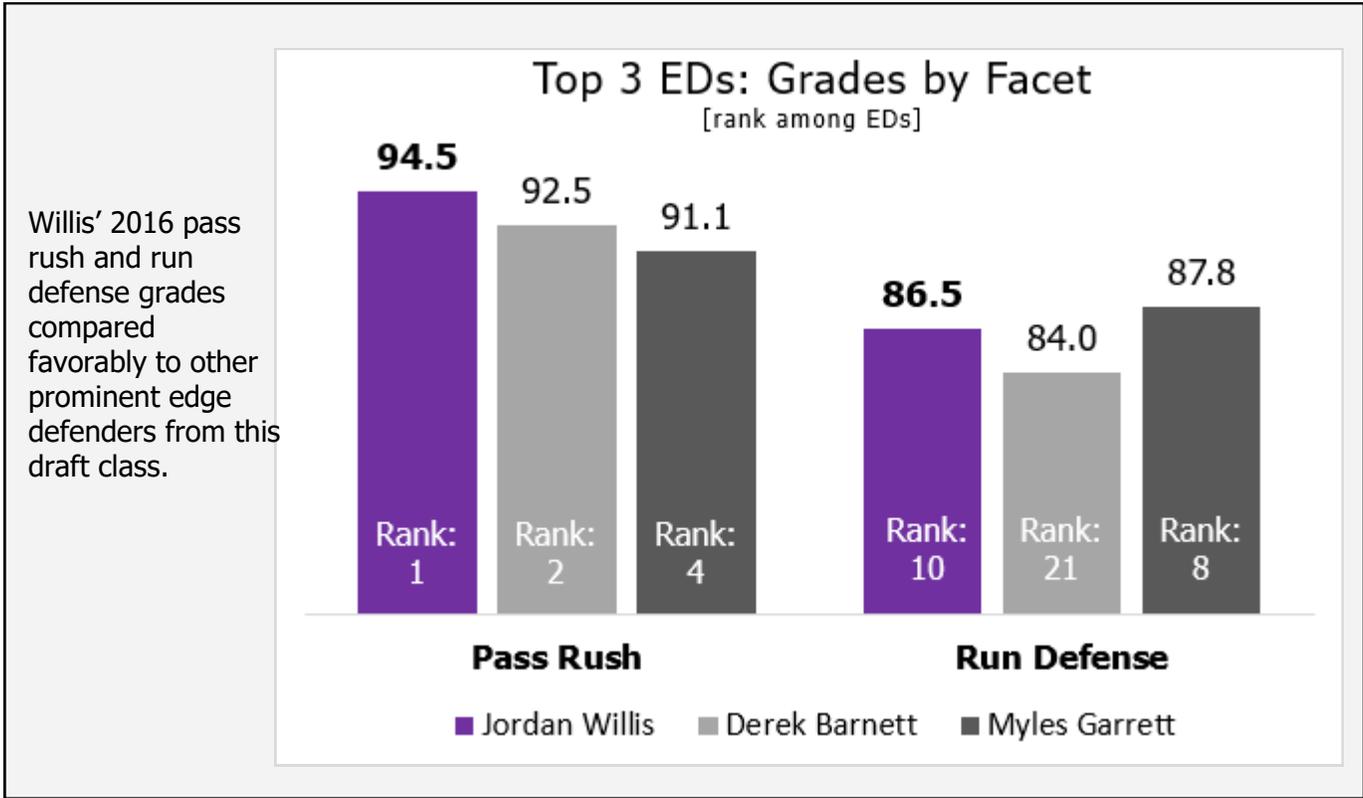

Willis' 2016 season as an edge rusher compares very favorably to that of one of PFF's top 2015 edge rushers, Joey Bosa.

II. Grades

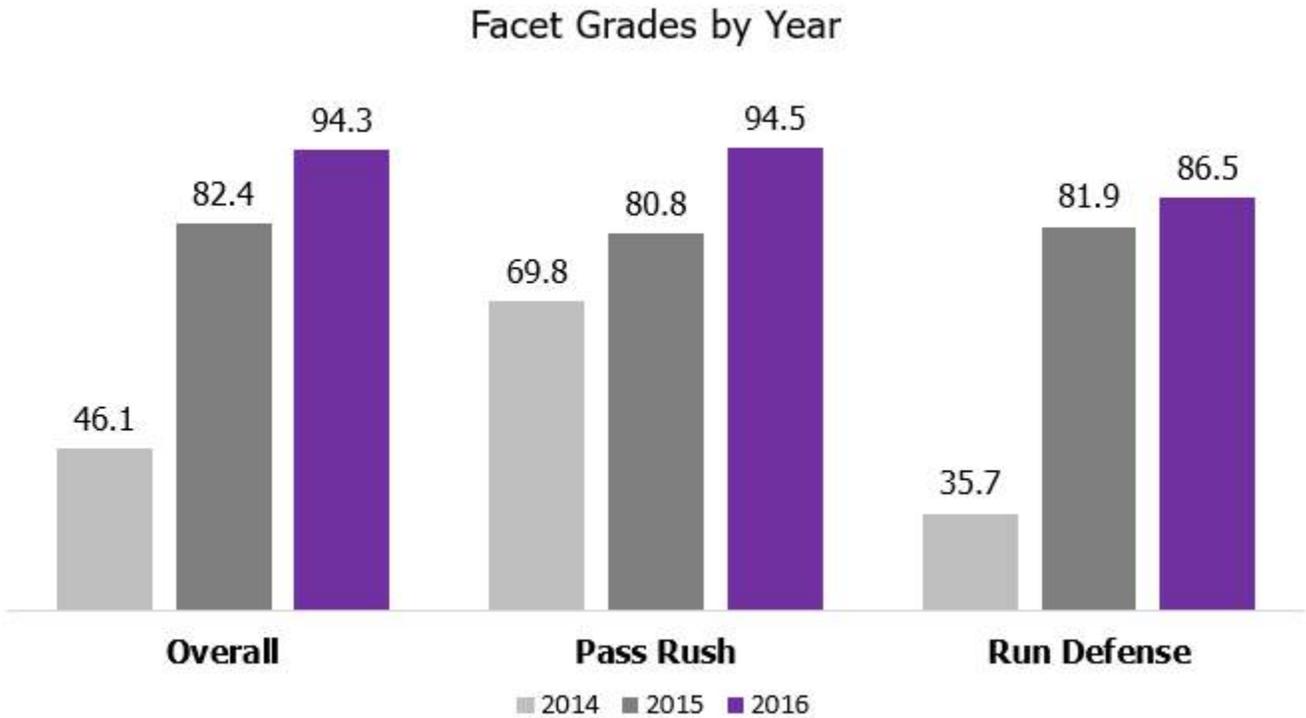

Willis topped the country's edge defenders (ED) with the highest overall PFF grade in 2016.

2016 Top 10 EDs by Overall PFF Grade

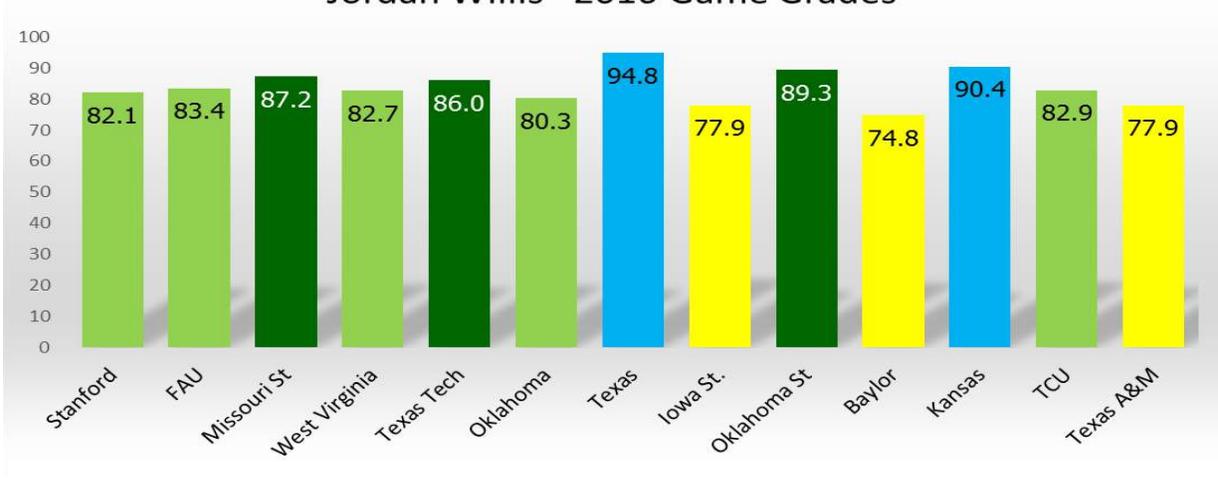

Over his past three seasons at Kansas State, Willis improved in each facet of play each season. While his pass rush production is what is most commonly noted about him, he also performed well against the run.

Willis' game by game production trend from 2014 to 2016, as reflected in PFF overall game grades below, shows the growth of a player who improved each season, culminating in his 2016 effort that ranked him atop the country's best edge defenders.

III. Production—Pass Rush

The most common place to find Willis rushing the passer from in 2016 was the left defensive end spot—that was also where he was most effective as a pass rusher, generating pressure of some form on more than 16% of his 447 attempts.

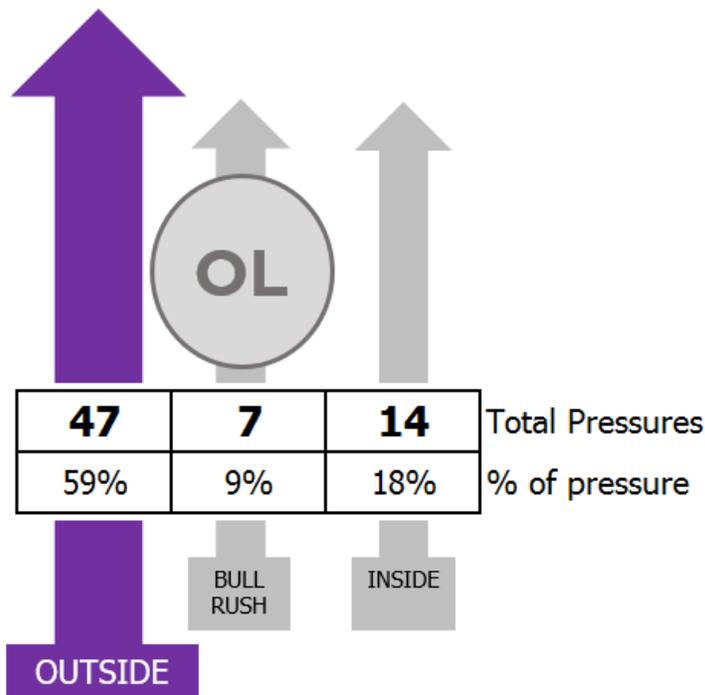

Willis - Pressure % Breakdown By Position						
	LOLB	LEO	LE	Interior	REO	ROLB
Total Pass Rushes	8	447	48	2	17	2
Pressure %	0.0%	16.6%	10.4%	0.0%	5.9%	0.0%

Willis' overall pressure percentage has risen each season and took a massive jump in 2016:

Willis: Pressure % by Year

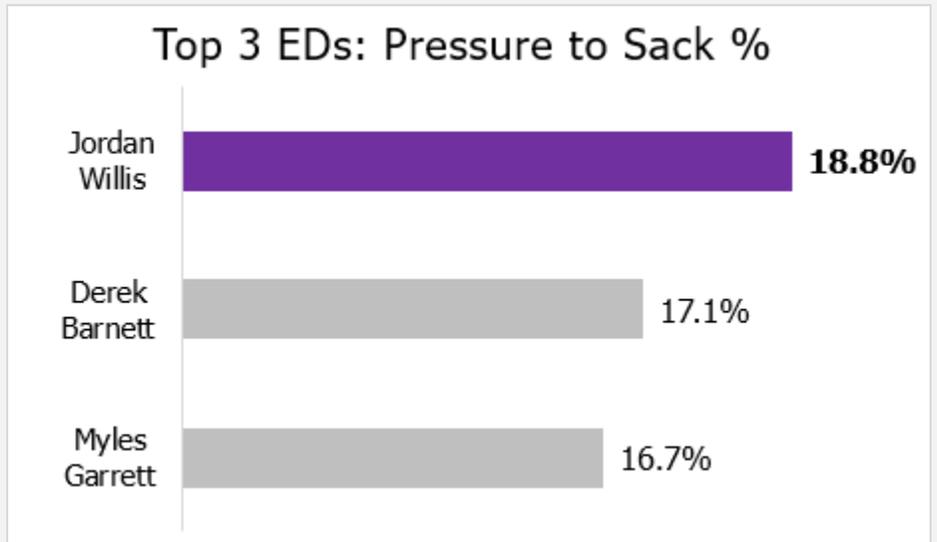

Willis Pressure Map

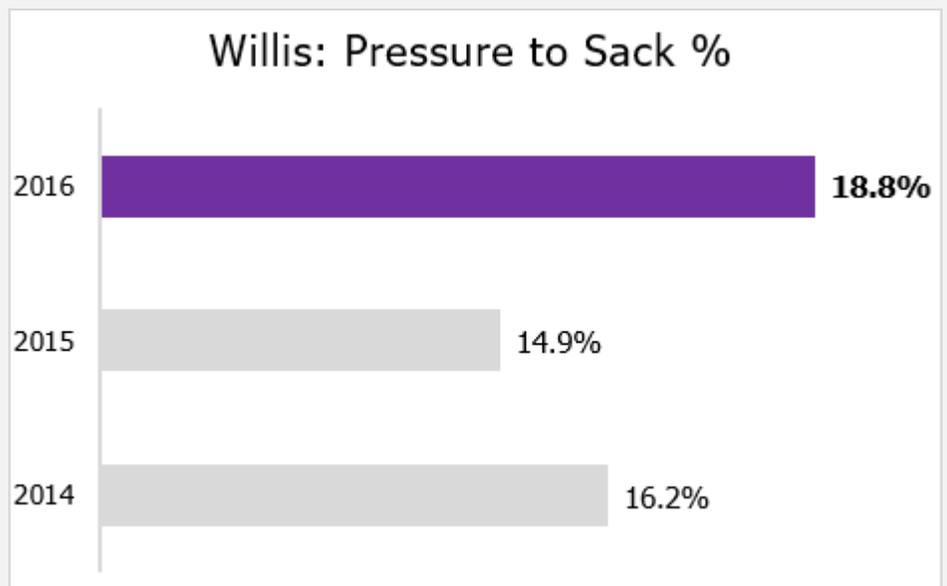

Breaking down how Willis earned his pressure in 2016, the diagram to the left shows his propensity for winning to the outside.

In addition to those numbers when beating a blocker, he earned 6 pressures while unblocked and 6 more in clean-up or pursuit situations.

His impressive pressure percentage in 2016 stands out when shown against those of some other top edge defenders in the class.

Willis converted pressure into sacks 15 times in 2016, more than 18% of his total pressures and the highest figure of his time at Kansas State.

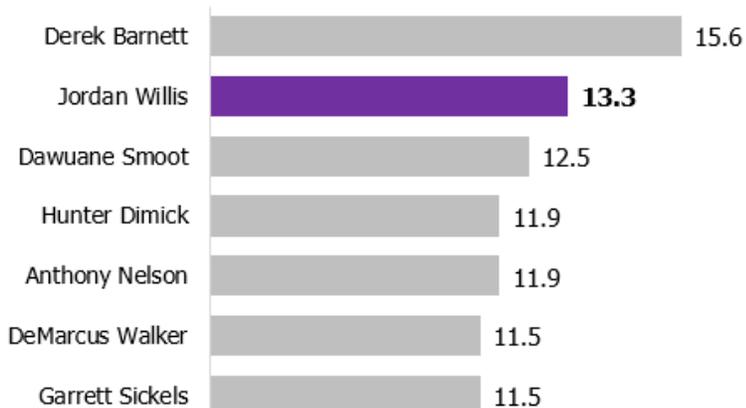

Taking pressure percentage a step further and weighing sacks a bit heavier than hits or hurries produces a metric called "Pass Rushing Productivity" (PRP). Willis ranked highly among all edge defenders in the Power 5 conferences in 2016 with an impressive 13.3 PRP.

When looking more specifically at edge defenders primarily playing a 4-3 DE position, Willis' PRP again stacks up well...

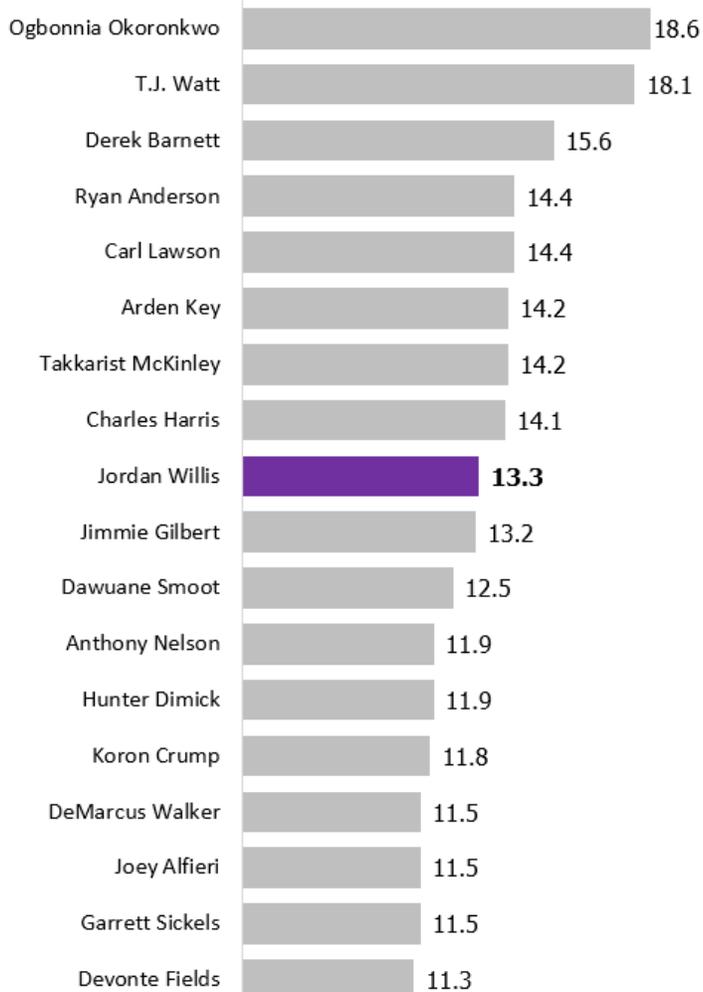

Power 5 4-3 DEs by PRP

[vs. Power 5 comp. + min 60% snaps]

Top 20 Power 5 EDs by PRP

[vs. Power 5 comp. + min 60% snaps]

Willis' tally of 80 total pressures generated in 2016 was 2nd-best in the country and most impressive in that total was the late tear he was on—producing 32 total pressures from Week 12 through the bowl game, well ahead of any other in that stretch.

Most Total Pressures (Sacks + Hits + Hurries), All Defenders, 2016			
#	Player	College	Total Pressures
1	Hunter Dimick	Utah	81
2	Jordan Willis	Kansas St	80
3	Trey Hendrickson	Florida Atl	78
4	Derek Barnett	Tennessee	75
5	Harold Landry	Boston College	69
6	Randy Allen	S. Alabama	68
7	Carl Lawson	Auburn	67
7	Tarell Basham	Ohio	67
7	Jonathan Allen	Alabama	67
10	Rashad Dillard	Troy	65

Most Total Pressures (Sacks + Hits + Hurries), All Defenders, Week 12 through Bowl Games , 2016			
#	Player	College	Total Pressures
1	Jordan Willis	Kansas St	32
2	Derek Barnett	Tennessee	25
3	Ja'Von Rolland-Jones	Arkansas St	24
4	DeMarcus Walker	Florida St	24
5	Randy Allen	S. Alabama	22

IV. Production—Run Defense

PFF's run defense grades, however, take much more into account than just tackles—beating blocks and positively affecting plays also factor into the grade. When all else was considered, Willis' run defense grade showed him to be one of the top run defenders among edge players.

Edge Defenders Run Defense Grades, 2016

Comparing Willis to a standout from a year ago, Joey Bosa, the two most recent top-graders among edge defenders stack up with similar final seasons. Willis produced more total pressures than Bosa's 2015 season.

Jordan Willis (2016)		Joey Bosa (2015)	
Total QB Pressures	80	Total QB Pressures	70
Pos Rank	2nd out of 189	Pos Rank	3rd out of 150
Pressure %	15.30%	Pressure %	20.20%
Overall PFF Grade	94.3	Overall PFF Grade	93.4
Pos Rank	1st	Pos Rank	1st

V. Playing Time

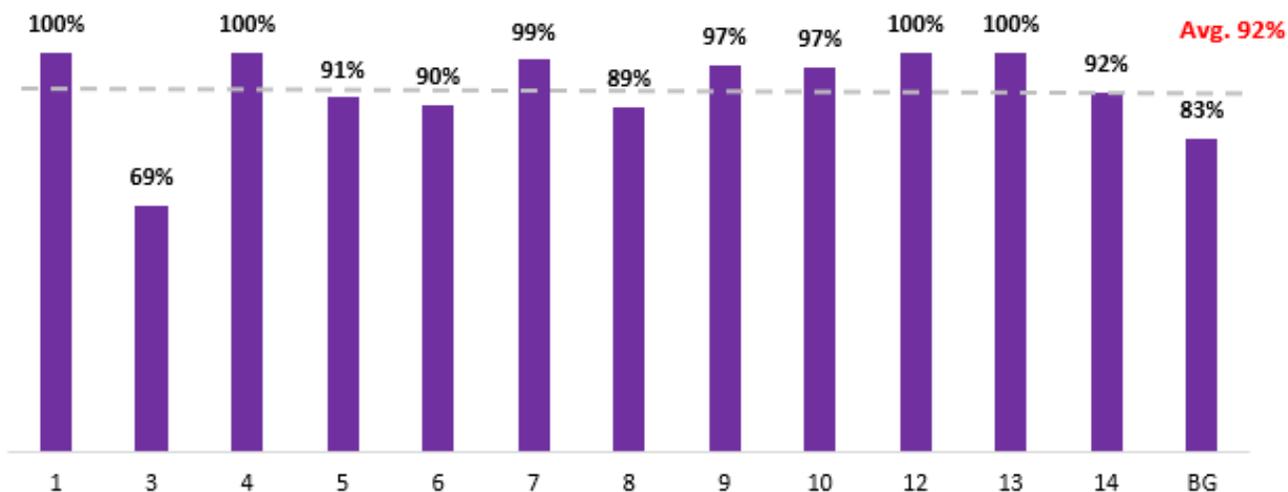

Willis finished 2016 with one of the highest total snap counts among all Power 5 edge defenders. While playing in more than 92% of his team's defensive snaps, a career best for him at Kansas State. His total of 841 defensive snaps played in 2016 was also limited by the team's Week 4 game being called at halftime due to lightning.

Power 5 Edge Defender Snap Leaders by Snap %, 2016							
#	Player	Team	Run Def. Snaps	Pass Rush Snaps	Coverage Snaps	Total Snaps	Snap %
1	Hunter Dimick	UTE	346	524	35	905	97.5%
2	Ogbonnia Okoronkwo	OU	362	261	237	860	93.0%
3	Jordan Willis	KSU	305	524	12	841	92.4%
4	Ross Dzuris	NEB	363	450	5	818	92.3%
5	Dawuane Smoot	ILL	474	362	2	838	91.9%
6	Porter Gustin	USC	359	417	51	827	90.7%
7	Uchenna Nwosu	USC	352	364	98	815	89.3%
8	Jimmie Gilbert	CU	377	345	131	853	84.8%
9	Derek Barnett	UT	411	389	27	827	80.1%
10	Daeshon Hall	TAM	378	424	13	815	76.2%

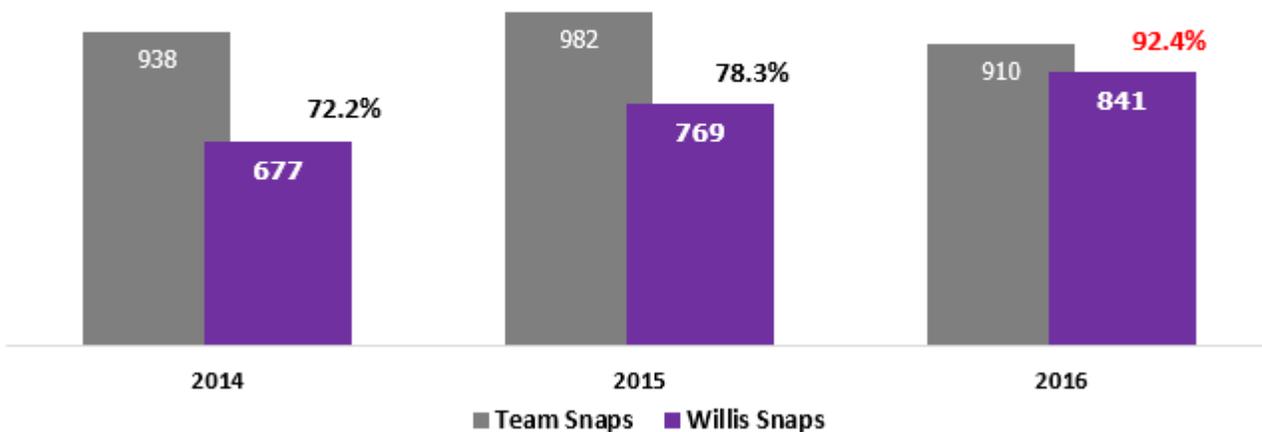

10 times in 2016, Willis played at least 90% of KSU's defensive snaps and he played every snap in a game four times during the season.

Snap % by Game 2016

Looking at his snap percentage progression over the past three seasons shows his climb up to every-down contribution.

Snaps Played by Year

Willis' snaps by alignment changed over the past three seasons. In 2016, 85% of his snaps came from the left side in a defensive end position...

2016										
Week	LOLB	LEO	LE	Interior	RE	REO	ROLB	Off-Ball	Total	%
1		48	1	1					50	100%
3	1	40	4						45	69%
4	1	28	1						30	100%
5	2	30	38						70	91%
6		83	1	2					86	90%

11		1		8		65	1		75	88%
13				25	1	51		1	78	85%
14				8		26	1		35	70%
15				3		55			58	72%
BG				9		23			32	36%
Total	3	10	0	143	6	475	28	12	677	72%
	0%	1%	0%	21%	1%	70%	4%	2%		

In addition to Willis spending more time locked in at the LDE spot in 2016, his percentage of snaps spent pass rushing was also the highest of his past three seasons.

2016							
Week	Total	Run Def.	RD%	Pass Rush	PR%	Pass Cov.	Cov%
1	50	27	54%	23	46%	0	0%
3	45	19	42%	26	58%	0	0%
4	30	17	57%	12	40%	1	3%
5	70	27	39%	40	57%	3	4%
6	86	16	19%	68	79%	2	2%
7	66	34	52%	32	48%	0	0%
8	57	26	46%	31	54%	0	0%
9	74	25	34%	47	64%	2	3%
10	65	21	32%	44	68%	0	0%
12	87	31	36%	56	64%	0	0%
13	74	18	24%	52	70%	4	5%
14	70	24	34%	46	66%	0	0%
BG	67	20	30%	47	70%	0	0%
	841	305	36%	524	62%	12	1%

In 2015 and in 2014, he saw something much closer to a 45%-55% split between run defense and pass rush duties.

2015							
Week	Total	Run Def.	RD%	Pass Rush	PR%	Pass Cov.	Cov%
1	46	19	41%	26	57%	1	2%
2	53	18	34%	34	64%	1	2%
3	91	29	32%	62	68%	0	0%
5	66	19	29%	47	71%	0	0%
6	50	19	38%	31	62%	0	0%
7	53	26	49%	27	51%	0	0%
8	42	31	74%	10	24%	1	2%
10	58	24	41%	34	59%	0	0%
11	63	27	43%	35	56%	1	2%
12	65	36	55%	28	43%	1	2%
13	38	14	37%	24	63%	0	0%
14	75	32	43%	40	53%	3	4%
BG	69	41	59%	27	39%	1	1%
	769	335	44%	425	55%	9	1%

Notable in 2014 was his game in Week 4 against Auburn where he lined up more often as a ROLB and dropped into coverage more than he would the rest of his college career.
